Irish Vote By 5 to 1 For EEC

Surprise Margin Hailed by Lynch

By Bernard D. Nossiter DUBLIN, May 11 (WP).—The Irish Republic has voted over-whelmingly to join the Common Market, approving entry by a margin of 5 to 1.

The outcome of yesterday's

poil, counted today, came as no surprise, but the size of the margin Was.

Premier Jack Lynch told re-porters it "demonstrates the political realism of the Irish peo-

Even so able a politician as Mr. Lynch looked for a 2-to-1 victory and said he was pleasantly surprised by the result. Un-official final returns put the "yes" total at 1,041,880 against 211,888 negative votes. Since about 70 percent of those eligible cast their paper ballots, more than half of the nation's registered voters approved the membership.

This was a big personal triumph lor Mr. Lynch, whose face adorned posters simply urging "Yes." Perhaps of greater international importance, it was a crushing defeat for the political arm of the Irish Republican Army, the Sinn Fein, which dominated the "No" campaign.

Mr. Lynch saw It that way too and said his people "very em-phatically rejected these groups and what they stand for." He said that the result "emphasizes" his mandate to crack down more firmly on the IRA in the republic, a move that London would wel-

Other Referendums

Ireland has become the first of the four new applicants to complete the constitutional process that will bring them into the Common Market's customs union. Referendums must still be held in Denmark and Norvay, and, in addition, Norway requires its legislature to approve this advisory vote. The British Parliament has approved the principle of entry, but enabling legislation is still working its tortuous way through the House of Commons. It is a virtual certainty that Britain will go in, but Norwegian and Danish voters have indicated their doubts. The big victory bere is likely to encourage the pro-marketeers in both Scandinavian nations.

All observers here agree that Treland's economic dependence on Britain was the single biggest factor in the poll. The bulk of Irish trade is with the United Kingdom and this would have been crippled if Britain went in and Ireland stayed oot.

The decisive vote has led some people here to think that the way is open for Mr. Lynch to revice Ireland's constitution, eliminate the privileged position of the Roman Catholic Church and thereby make his country more attractive to the Protestants

1 Ulster. The most realistic oliticians there have said that Acter's future lies in a united rish State, but this can only ome about when Protestant iews on divorce, contraception, ducation and other matters are legally guaranteed.

In response to a reporter's question, however, Mr. Lynch insisted that the vote on the Common Market was a matter entirely separate from constitutional reform. He is a cautious politician and has appointed a parlia-mentary committee to look into revision, bot be has selected very conservative figures from his own party to sit on it.

come to regret."

Black Panther leader Bobby

Seale, whose case was separated mid-way through the trial after he had repeated arguments with Judge Hoffman, was sentenced at that time to four years in prison for contempt. The appellate court ruling to-

day left the contempt charges pending against the defendants and two attorneys. But it set aside the severe sentences imposed by Judge Hoffman, and directed that a different federal judge conduct trials on the contempt charges.

After a tumultuous, four-monthlong trial that cost the govern-ment more than \$2 million to conduct, the jury acquitted seven defendants of charges of conspiracy. But it found all except Mr. Fromes and Mr. Weiner guilty of crossing state lines to incite a riot. They were sentenced by Judge Hoffman to five years in prison and fined \$5,000

each. These sentences are still under appeal and are awaiting a ruling by the appellate court.

Conspiracy and incitement to riot charges against Mr. Seale

were later dropped at the request

of the U.S. attorney. Today's ruling directing a trial on the contempt charges was on a motion for a new hearing filed in March, 1971, by the U.S. attorney after the Supreme Court ruling of Jan. 20, 1971, requiring immediate imposition of contempt sentences or trial by another judge. The U.S. attorney's action may have beaded off an appellate court ruling dismissing the con-

tempt charge entirely.

Mines Now Activated At 7 Ports in North

By Craig R. Whitney
SAIGON, May 11 (NYT).—The mines sown by
U.S. planes off seven North Vietnamese ports became active at 7 o'clock, Saigon time, tonight and the U.S. command announced that yesterday morning, "several merchant vessels," at least one of them flying the Soviet flag, were seen leaving Haiphong harbor.

When Navy planes began laying the mines, there were 36 ships—16 of them registered in the Soviet Union—in Haiphong harbor, the principal port in

Nearly 1,000 miles south of Haiphong, Communist troops began a new assault, supported by tanks, on the provincial capital of An Loc, 60 miles north of Saigon, but the 8,000 defenders of the South Vietnamese town

were still holding their positions. Rundreds of U.S. planes con-tinued to attack highways, railroads and supply storage facilities over a wide area of North Vietnam. According to U.S. military spokesmen, most of them avoided Hanoi and Haiphong, which were hit in huge raids yesterday.

[Reuters reported that the Hanoi radio had said that U.S. planes attacked targets in the North Vietnamese capital today and that three had been shot

· Protests continue unabated in the U.S. Page 3.

down Several American airmen were captured, the radio added.] A U.S. command spokesman in Saigon said that U.S. Navy ships, including the heavy cruiser Newport News, had continued to bombard North Vietnamese coastal defense sites and other unspecified targets on coastal sites only a few miles from Halphong, which is 60 miles east of Hanol.

public law." In yesterday's raids, U.S. jets
bombed the Paul Downer Bridge
in the center of Hanol, outling The Chinese statement continued; "If only the US goveriment stops its aggression immediately, withdraws all its forces unconditionally and a hole in the span but not knocking it down, a high-ranking U.S. officer said. The Navy force hit targets four miles from ceases supporting puppet cliques, U.S. prisoners of war Haiphong and officers aboard the will return home at an early ships said they saw several merchant ships leaving the date and the lives of American soldiers will naturally be harbor but did not fire on them. The U.S. planes flying over the North yesterday fought some of the heaviest air-to-air battles of the war with North Vietnamese MiG fighters, and, according to

No Reference Made To Summit Meeting

By Robert G. Kaiser

MOSCOW, May 11 (WP).-The Soviet Union said today that the United States' new "aggressive acts" in Vietnam were "inadmissible," and that "the government of the United States will bear the entire responsibility for the possible consequences of its illegal actions."

The Soviet statement did not cite any specific

consequences," and most notably did not mention the visit by President Nixon scheduled to begin here May 22, so it appears not to have been canceled or postponed.

The Soviet statement did "resolutely insist" that the U.S. blockade of North Vietnam "be canceled without

The statement seemed intended to rebut Mr. Nixon's speech of Monday night by putting the blame for the new situation—which it called "fraught with serious consequences for inter-national peace"—entirely on the United States, without precluding

further diplomatic maneuvering between Washington and Moscow-The Soviet statement contained none of the harsh language or threats of retalistory action that might have been expected if the Kremlin had decided to interpret the blockade as a direct and serious provocation to the Soviet

Prospects Brighter . Diplomatic observers here seem-

ed to agree that prospects for holding the summit meeting as scheduled were brighter tonight than they were 48 hours ago. But uncertainty still abounds here. A senior diplomat representing one of Moscow's Asian allies gave tha most optimistic interpretation. He said tha seriousness of the Indochina situation made a summit meeting "all the more neces-

sary" now.
The Soviet statement reiterated Moscow's support for the heroic Vietnamese people," and promised to continue providing "the necessary support" to North Vietnam. Besides blaming the United States for any consequences of its escalation, the Soviet state-

ment made two main points:

• The Russians emphasized tha alleged illegality of the blockade of North Vietnam's ports. "Nobody gave the United States the right to restrict anybody's freedom of navigation on the high seas," tha statement said. It accused the United States of violating the 1958 Geneva maritime conventions, which it said guarantee open seas. The blockade is "a direct threat to ships and lives of seamen of many states which carry cargoes for the Democratic Republic of Vietnam's population," the statement went on

U.S. neglect for maritime law. the statement said, reveals "contempt for one of the main demands of international law—tha observance by states of the commitments they have assumed under international treaties. It is a dangerous and slippery road. It can lead only to a new compli-

cation of the international situa-(Continued on Page 2; Col. 5)

Top Admiral Says U.S. Acts in Self-Defense By Robert Siner

WASHINGTON, May 11 (IHT). -Adm. Elmo R. Zumwalt, chief of naval operations, declared today that the mining of North Vietnamese ports was "clearly an act of self-defense on the part of the United States and South

Answering questions on a nationally televised interview program just an bour after the mines became active, the Navy's top admiral said that the mining will have almost an immediate psychological effect on Hanol. He explained that now the North Vietnamese will be faced by the prospect that the "input of supplies" will be slowed to "a trickle or zero" and will have to decide whether to use their re-maining war materiel in one allout push or a "series of smaller

The chief of naval operations stated that the mines had activated themselves at 7:00 a.m. (EDT) and warned that the 31 ships remaining in Haiphong harbor would be well advised not to leave."

12 Soviet Vessels Later the Pentagon told news-

men that of the ships left in the barbor, 12 flew Soviet flags, five were from China, three were Polish vessels, three were Hong Kong-based British ships, two were Cuban, one was East German and five were under Somali

Five ships left Haipbong harbor before the U.S. mines became active, the Defense Department

Adm. Elmo R. Zumwalt

Four of the vessels which sailed on the last "daylight grace period" were Russian-two tankers and two freighters, the report said. The fifth sidp was identified as a Hong Kong-based British vessel.

Adm. Zumwalt stressed that the mining operation was not legally a blockade. He pointed out that ships would be warned by "every available means" of the mine-fields and then would continue at their own risk.

"If necessary, our shins will go alongside and warn them with megaphones," he said.

In answer to a question as to what would be done if ships attempted to run the minefields,

that the United States would take "whatever action necessary to prevent supplies from reaching North Vietnam, the same answer given by Defense Secretary Melvin R. Laird to similar questions during a press conference yesterday. He refused to comment on Secretary Laird's suggestion that U.S. naval vessels might stop ships trying to go through the mine-Adm. Zumwalt also declined

comment on what actions he thought the Russians might take in response to the mining, saying only that "it is a little early" for any Russian reaction. In its first official statement on

the mining action, the Soviet government demanded that the mines be removed but did not mention what action it might take if they were not. Meanwhile, the Pentagon in-

dicated that it was not likely that ships now in North Vietnamese harbors would be bombed if they continued unloading their

"We don't want to involve any third-country shipping if we can help it. Obviously, those ships are not the ones we are worrying about," a Pentagon spokesman said.

Asked about reports of naval gunfire on the ships in Haiphong, the spokesman told newsmen that three U.S. cruisers and two destroyers had shelled a petroleum storage depot in the area but had not aimed at the ships.

He also said that North Viet-(Continued on Page 2, Col. 2)

U.K. Asking Court Order On Rail Vote

In Last-Minute Bid To Bar Slowdown

LONDON, May 11 (AP).-The government made a last-minute bid today to stave off a leogthy slowdown rail strike scheduled for midnight. It applied for a compulsory ballot of Britain's 300,000 railmen on the grounds they did not want the strike.

The new Industrial Relations Court, set up by the government 25 part of strike-curbing legislation, considered the application for three hours, then adjourned Without a decision

If the court agrees to order a compulsory secret ballot, it will be the first test of the new procedure in the government's campaign to cut labor union power. The 11th-hour bid came after a day of maneuvering by cabinet. ministers and leaders of the three big rail unions to settle the sixweek-old rail dispute over union demands for large wage increases. Too Late

However, the ballot call is likely to be too late to prevent the go-slow strike from starting at midnight. The unions will only be barred from carrying out their plan from the date the court orders the ballot until voting is completed. Whatever the ballot result, the unions can reimpose the action if they think

The ballot bid is the lest card the government can play in its legal machinery to prevent a nationwide go-slow that could seriously disrupt commercial and commuter traffic.

The unions, which are known to oppose any secret ballot move, went ahead with their plans to curtail train schedules.

The government halted a goslow strike by the railmen three weeks ago by ordering, for the first time, a 14-day cooling-off period under the Industrial Relations Act. But that left the dispute unresolved when the cooling-off period ended Tuesday.

The unions had agreed to a pay raise offer of 12.5 percent from the state-run British Rail, but want the increase backdated to May 1. Deficit-plagued British Rail said it cannot afford this and wants June 5 as the starting

Later, Defense Secretary Laird, in a Florida news conference, stated that the ships that remained in North Vietnamese ports were there through a decision in which "each of the captains and the governments

'Now these mines are not going to go out and seek these ships, Mr. Laird continued. "If these ships seek out these mines, then there will be an explosion."

Nixon Vietnam Policy Study Is Placed on Public Record

WASHINGTON, May 11 (AP).-The secret Vietnam policy papers of the Nixon administration, which Sen. Mike Gravel, D., Alaska, has been prevented for more than two weeks from putting on the public record, were quietly inserted in the Con-pressional Record yesterday by Sen. Gravel's office confirmed Rep. Ronald V. Dellums, D.,

"Gravel gave me the papers, asked me to put them in the Record, and I agreed to do it, because I think the American people have the right to know the basis on which the President's reckless decisions are being made," Rep. Delhums said.

He inscried in the Record without objections from any House member 29 pages of the memorandum. It is sometimes referred to as the Kissinger papers for President Nixon's national security adviser Henry A. Kissinger. It contains opposing recom-

mendations by Pentagon and civilian agencies on Vietnam war policy in 1969.

All of the memorandum appearing in the Congressional Record had been disclosed in stories in The Washington Post and the

that the Alaska senator had given Rep. Dellums the papers for insertion in the Congressional Record. 'He had announced earlier that he would give a copy to every senator and to any House member who asked for one.

Sen. Gravel was blocked from inserting the papers in the Congressional Record on April 25 and the Senate hae made no decision on permitting him to do so after two rare secret Senate

Saigon to Draft 17-Year-Olds, Ban

Racing, Dancing
SAIGON, May 11 (Reuters).—
Conscription of 17-year-olds, barning of horse racing and the closing of massage parlors and nightclubs were announced by the South Vietnamese government

They were among measures outlined by the government to mobilize national efforts in the face of the Communist offensive. Saigon and armed forces radios

said that the new measures were approved at a cabinet meeting last night when President Nguyen Van Thieu ennounced that South Vietnam would be under martial law from today. Other measures included:

 No more dancing at home (dancing in public has long been banned), or playing of music et parties and other private func-

Travel abroad banned for men of conscription age (17 to 43). Universities and technical institutes will be closed temporarily. Men aged between 39 and 43 will be called back to duty, but will not serve in fighting units.

On Capitol Hill, a Senate move

to cut off funds for U.S. military operations in Indochina remained stalled as supporters of a resolution offered by Sen. Frank Church, D., Idaho, and Sen. Clifford P. Case, R., N. J., tried to decide on the possibility of adding a cease-fire proposal. The measure, as it now stands, would cut off all funds for the war four months after the North Vietnamese and the Viet Cong egree

ters).-U.S. jets hit the compound North Vietnamese capital today, the New China News Agency said.

casualties, but the agency, quoting the North Vietnamese news agency, said a building belonging to the mission was badly damaged and pieces of furniture destroyed.

19 U.S. Deaths Is Highest Toll In 7 Months

SAIGON, May 11 (AP),the war last week, the heaviest U.S. toll in seven months, while South Vietnamese combat deaths totaled 603, down from the previous week's toll

ed, mostly by U.S. and South Vietnamese air strikes that were called in by the defenders; the command said.

B-52 bombers flew in from Thailand and dropped thousands of tons of bombs on suspected North Vietnamese positions in the rubber plantations that surround the ruined town, spokesmen said, After one of these raids a North Vietnamese regimental executive officer and 10 other enemy solsurrendered, the spokesman

A U.S. A-37 light bomber was shot down as it was dropping bombs near An Loc early this morning, and its two crewmen were declared missing by the

In a related attack 26 miles west of Saigon, near the town of Trang Bang, a North Vietnamese battalion of several hundred mer clashed with government militia forces. Sixty-two army soldiers were killed, and five government troops were wounded, according to the Saigon command.

In the Central Highlands front in Kontum Province, a large attack, also supported by tanks, on the Ben Het ranger camp near the Cambodian frontier, was re-portedly beaten back by the fenders, who are mostly Montagnard tribesmen. One bill, roughly a third of the camp, was occupied by the attacking forces last Tuesday but all of them were driven out today, according to a South Vietnamese military spokesman in Pleiku.

Officers in Pleiku believe that the thrusts on Kontum will continue and that eventually the city will be attacked.

On the Hué front, an enemy force of unknown size attacked behind the government's improvised defense ine and hit a district town 16 miles north of Hué with shelling and sapper squads, according to the government spokesmen. Twenty of the enemy were killed and one was captured by government forces, who suffered six killed and 18 wounded in the battle, the Saigon command said.

(Continued from Page I) ... tion and to lawlessness in international relations." • The statement rejected the U.S. justifications as "false pre-

texts" that are "used to cover up adventurist actions." The statement specifically rejected the idea that the action was intended to "save the United States from humiliation" or promote a negotiated settlement. Instead, the blockade and bombing are simply "piratic" acts, the Soviet government said. "Barbarous acts and crimes are follow-

ed by new and graver ones." The real purpose of the escalation, according to the statement, is "to break the economic trade and other relations that the Democratic Republic of Vietnam has developed with other states, to deprive the DR.V. of the opportunity to receive aid for its people to rebuff U.S. aggression, and to receive foodstuffs and other supplies for the peaceful population." In conclusion, the statement

"The Soviet government resolutely insists that the United States' steps to block the coast and disrupt ground communica-tions in the Democratic Republic of Vietnam be canceled without delay, that acts of U.S. aggression against the D.R.V. be ended, that the right to freedom of international navigation and trade be respected. The Soviet government expresses the hope that this point of view is shared by the governments and

Diplomatic observers here seemed unanimous in their conviction that Washington has day's statement. The general assumption here is that the two powers are negotiating in some secret manner.

The U.S. advance party here to prepare for the summit talks met again today with Soviet officials. "Everything is going for-ward normally," a U.S. spokesman said.

In a display of support for North Vietnam today, Premier Alexei Kosygin met with Xuan Thuy, the chief North Victnamese negotiator in Paris, who is here on his way home to Hanoi, Their conversation, according to an official announcement, "passed in a cordial, comradely atmosphere."

Romania Protests UNITED NATIONS, N.Y., May

11 (AP) .- The Romanian government, in a statement made public here by its UN mission yesterday, termed the U.S. measures in Vietnam "a new and dangerous intensification of the war in Indochina" and asked for "the immediate cancellation of all measures of escalation and ag-

Russia 'Insists' Nixon Sees Soviet Official, Who Doubts Visit Is Off

(Continued from Page 1) Ron Ziegler said that the trade minister had paid a "courtesy call" on the President and that it had been "a courteous meeting." Both sides seemed to want it to be well publicized.

When Mr. Ziegler was asked if the summit meeting had been discussed, he said the talks had focused on trade negotiations. He noted that former Secretary of Commerce Maurice H. Stans was recently received in Moscow by Premier Alexei Kosygin and that Secretary of Agriculture Earl L. Butz had conferred with the Soviet party leader, Leonid I.

"The President wanted to re-

ceive the trade minister." Mr. Ziegler said. He said he had nothing new to report on the

cummit talks except that planning was continuing. One source said that after Mr. Nixon's speech on Monday night announcing the mining of North Vietnamese ports, high officials here believed there was a 9-to-1 chance the Russians would postpone the visit. Planning for the meeting was slowed, it was said, but it was back in high gear today.

The President flew to Camp David in Maryland late in the day, presumably to spend most of weekend preparing for the meeting. He also will receive reports on Vietnam military de-

The statement said that the U.S. could not hope to force the Vietnamese people to submit by so-called air and naval superiority. It reiterated China's utmost support for the North Vietnamese government statement yesterday assailing the U.S. move. "The Chinese government reaffirmed that the 700 million

Chinese people provide a powerful backing for the Vietnamese people: the vast expanse of China's territory is their reliable rear area. No matter what happens, this stand of ours will remain firm and unshakehle

that China pledged its resolute eupport for the Vietnamese people until final victory "no matter what forms the war may assume."

The Chinese news media, previously allent on the Nixon measures, were dominated vesterday by reports and criticism of

The official party newspaper, People's Daily, devoted its two-page international section to Vietnam and the U.S. action, including the full text of President Nixon'e speech announcing the blockade.

The first official Chinese reaction came in an article on the front page of the People's Daily signed "Commentator," believed to be a high government and party official whose articles reflect official thinking.

The article referred to idangerous move on the part of U.S. imperialism."

Diplomats in Peking, after studying the article, noted that it had made no reference to Mr. Nixon's proposals to end the blockage when U.S. prisoners in North Vietnam are released and there is an internationally super-

One Western diplomat com-mented: Though the Chinese are clearly not happy, they are weighing their words very care-They are playing a very com-

plicated long-term diplomatic game which they—just like the Russians—cannot suddenly afford to have broken off by one development such as this."

Chinese Protest at UN

UNITED NATIONS, N.Y., MAY (Reuters).—United Nationa Secretary-General Kurt Waldheim conferred tonight

Chinese Ambassador Huang Hua shortly after Peking protested

here against the mining of North

Vietnamese ports. Ambassador Huang denounced the "open riolation of the freedom of international navigation' and accused the United States of "further expansion of the war

of aggression." Mr. Huang sent a protest letter to Mr. Waldheim at his New York residence and a copy to U.S. Ambassador George Bush at his home. Mr. Bush is president of the Security Council this month and the letter was addressed to him in that capacity.

statement and a similar by Secretary of State Wil-P. Rogers have been overby events in which the d States changed its postmd did resume briefly both formal negotiations with Vietnam in Paris and the

talks, the latter between Kissinger and North Vietse Politburo member Le Duc m May 2.

Laird acknowledged at his conference that the postne originally stated is "out

of date," and was "changed by the President,"

A great number of questions, however, still hang over the entire U. S. proposal for ending the American share of the Vietnamese war.

pute about the exact mean-President Nixon, in his Mon-f the Nixon administration's day night version of the latest offer, said that intensified military actions against North Vietnam and its supply lines will cease when Hanoi agrees that:

(1) All American prisoners of

"must be returned." (2) There "must be an internationally supervised cease-fire throughout Indochina," (3) "Once prisoners of war are released, and once the internationally supervised cease-fire has begun, we will stop all acts of force throughout Indochina, and (4) "At that time we will proceed with a complete withdrawal of all American forces from Viet-

nam within four months." No Withdrawal Demand This proposal apparently makes no demand for the parallel withdrawal of North Vietnamese forces from South Vietnam.

In other words, the United States was offering unilateral withdrawal of its troops. Mr. Kissinger said that in his May 2 meeting with Le Duc Tho, the Hanol envoy refused "even to discuss" the U.S. proposals, and Mr. Kissinger expressed the view that in time North Vietnam may "believe that it now has proved its military capacity to the point where it could afford a purely

military solution." When and if that time comes, there would be a barrage of bargaining questions including many that presently are being left un-

What would be the duration of the cease-fire? What kind of cease-fire would it be, a standstill cease-fire, a cease-fire permitting regrouping of forces. etc.? Could military conditions for the cease fire involve political factors?

What would happen in Lace or Cambodia to U.S. supported forces and American personnel in those countries would they be withdrawn? If troops are withdrawn from South Vietnam, would U.S. air power be reintroduced?

That question was directed at Mr. Laird yesterday. He called it "a very iffy question," but said "my recommendation" would be-"to use the [American] air and see power" if the internationally supervised cease-fire is violated.

By William Chapman

WASHINGTON, May 11 (WP). -With the race for the Democratic presidential nomination more than half over, the two strongest candidates are looking ahead to the California primary as the next one capable of de-

termining their fate. Nothing between now and the California primary on June 6 seems likely to unrayed the mystery of whether Sen. George S. McGovern or Sen. Hubert H. Humphrey will win the nomina-

Mathematically, California's 271 delegates will not decide the question either, but it is the most important primary left before the Democratic National Convention chooses its candidate in July.

The primaries Tuesday in West Virginia and Nebraska merely underscored the uncertainties of 1972 and emphasised that the race is now a two-man comiest, with Gov. George C. Wallace destined

to play a lesser rola.
With 14 of the 23 primaries behind them, and more than 1,200 of the convention delegates elected, none of the three active candidates can claim anything like commanding lead.
The count of elected delegates

in both West Virginia and Nebrasks was proceeding too slowly to pick out the winners in either state. With those states excloded, The Washington Post's tally of committed delegates is as follows: Sen. George S. McGovern-

319 1/2 Sen. Hubert H. Humphrey-Gov. George C. Wallace—218. Sen. Edmund S. Muskie—

125 1/2. Uncommitted-234.

Favorite sons and mimor candidates-71.

Michigan Next Of the 14 primaries held so far,

Sen. Muskie has won 2, Sen. Humphrey 4, Gov. Wallace 4, Sen. McGovern 3, and the Rev. Walter Fauntroy of Washington, D.C., 1. The next round is likely to be Gov. Wallace's. Next Tuesday he is expected to make a strong showing in the Michigan primary, picking up perhaps one-third to one-half of the 132 delegates,

On the same day, he is entered in Berkeley the protests were the most intense since 1969. in the Maryland primary, and Democratic officials there con-Observers in Berkeley said the cede he is likely to lead the field. After that comes Oregon, in which Sen. McGovern is judged the strongest in the state polls. Then comes California's winnertake-all battle for 271 delegates. The last big primary, in New York, has been virtually conceded to Sen. McGovern by the Humphrey forces, who are merely try-

politicians there believe.

Daley Doubts U.S. War Policy For First Time

CHICAGO, May 11 (Revters) - Chicago Mayor Richard Daley voiced doubts her about U.S. policy in Vietnam and for the first time broke with a presidential administration over its Indochina

Mr. Daley, 69, who in the past has consistently supported U.S. policy in Southeast Asia, told a press conference last night: "I have supported Nixon in

all his decisions until this one the mining of North Vietnam ports] and I have some serious doubts about this one." Mayor Daley said:

"I think we should stand by our Presidents in many situations but I don't think any President-Essenhower. Kennedy, Johnson or Nixonhas the right, without the approval of Congress, to carry

Mansfield Says China Talks Show Mining Hurt U.S. Aims

WASHINGTON, May 11 (AP). The Senate Democratic leader, Mike Mansfield, of Montana, said today that talks with China's leaders convinced him that China would not intervene to release U.S. war prisoners or end the war on a basis not satisfactory. to North Vietnam.

Reporting to the Senate after a three-week tour of China, dur-ing which he and the Senate Republican leader, Hugh Scott, of Pennsylvania, visited six cities, Sen. Mansfield said that the current escalation of the war has "tarnished" the significance of President Nixon's historic trip to Peking.
Sen. Mansfield met for more

than eight hours with Chinese Chou En-Lai and he reported:

"The Chinese made clear their belief that the resumption of the bombing of the North could prolong rather than end the

leaders painted a "bleak picture" of the prospects for peace on the basis of policies now being pursued by the United States and the North Vietnamese, Sen. Mansfield said. "Unless there are changes in

the present course, therefore, visits to China will not alter the indefinite continuance of the bloodletting of Americans, Vietnamese, Cambodians and Lactians, the destruction of the culture and environment of the Indochinese countries, the waste of tens of billions of dollars. . . Sen. Mansfield said.

American prisoners, he said, will be released "only when U.S. air and naval operations cease." Sen. Mansfield said that, in the light of the mining of Haiphong harbor and other acts by the United States, the immediate prospects of further improvements in Sino-American relations are not bright.

McGovern, Humphrey Aim for California Gold

versity city of Lincoln

ing to salvage a group of un-committed delegates for the Min-

nesotan to collect later. If Sen. McGovern wins in Oregon, California and New York, he will be far along the road toward the nomination and perhaps unstoppable. He would have won six primaries, includ-

ing the two biggest ones. Moreover, he has been far mora successful than any other candidate in winning delegates in the nonprimary states. Deftly organized precinct sweeps have brought him pledged delegates from such disparate states as Georgia, Vermont, Idaho, Iowa and Arizons.

Moreover, in several other states where conventions have not yet elected delegates Missouri, Texas, Louisiana, Kentucky, Kansas, Oklahoma, Virginia and Washington, for examples Sen. McGovern is assured of winning blocs because his forces took over enough precincts. Sen. Humphrey has made little

effort in the nonprimary states, but has a large reservoir of strength among the uncommitted delegates in many of them. He is expected to have substantial blocs in the Texas, Louisiana, Missouri, and Georgia delegations, among uncommitted delegates, and in Washington State, where Sen. Henry M. Jackson's delegates are expected to switch to Sen. McGovern's forces es

timate he could go into the convention with nearly 1,300 delegates—assuming victories in California and New York. He needs 1,509 to be elected. problem then would be to swing some of the uncommitted his way, pick up many of the Muskie delegates, and pull away on a second ballot those delegates legally bound to vote for Gov. Wallace or Sen. Muskie on the

Most of the uncommitted delegates are not friendly to Sen. McGovern at this point. They represent Southern states where he is regarded as being too liberal or they represent party organizations normally hostile to reformers. One key bloc is of emcommitted delegates in Illinois perhaps numbering more than 100 and loyal to Mayor Richard J. Daley of Chicago. Radical Views

Sen. McGovern's victory in the Nebraska primary was marred by the flowering of a major line of political attack on the South Dakota senator as a man with unacceptably "radical" views on such social questions as abortion, marijuana and amnesty. Sen. McGovern and his staff

were plainly concerned that this attack was working, particularly among Catholic voters, and gave much of their emphasis in the final days to a defensive campaign to deal with what they lost Sarpy and Cass Counties, called this "last minite smear" both of which are linked eco both of which are linked economically to Offutt Air Force The Nebraska returns show that Sen, McGovern lost all but two of

John H. Meier-plotted to get Mr. Hughes to buy claims for far more than their worth. An ex-PBI man who became a Hughes troubleshooter estimated last year that Mr. Hughes had spent \$18 million on Nevada min-

ing claims probably worth less

then \$100,000 by 1971. The government is interested in who ended up with the money. Tax investigators also are look-ing into the following allegations:

• Huge sums of money that

rightfully should have wound up in the Hughes coffers have found their way to foreign countries. Underworld figures may have sinhoned off casino profits.

• Entertainers were forced to pay 10 to 15 percent "kickbacks" to the executives who booked them into Hughes hotels.

 Despite huge investments in them, the casinos reported only marginal profits after the Hughes takeover, whereas they were quite profitable before. Given the laws of chance and

the standard house percentage, casinos are supposed to return a fairly predictable profit. Yet it became well known in Nevada that Hughes casinos were not making it.

Most federal investigations into

Las Vegas gambling irregularities have centered on skimmingraking money off the top in the casino counting rooms before re-porting profits for tax purposes. No skimming charges have ever een brought against anyone in Mr. Hughes's seven casinos. D Los Angeles Times

Italian Pilots Declare Boycott Of 16 Airports

ROME, May 11 (Reuters).-Italian airline pilot groups to-day declared 16 of their country's airports "insufficiently safe" and said that the pilots would not land at them except in certain atmospheric conditions. The pilots added that unless

immediate steps were taken to improve safety they would soon refuse to land under any conditions at those airports that they considered most dangerous, The announcement was made

six days after an Alitalia crash at Palermo's airport in which 115 people were killed. Palermo's Punta Raisi Airport

was one of the 16 listed. The others, including several airports osed for summer tourist traffic, are at Alghero, Barl, Catania, Crotone, Comiso, Forli, Florence, Lampedusa, Lecce, Olbia, Pan-telleria, Rimini, Reggio Calabria, Taranto and Trapani.

The aim of the boycott, the pilots said, was to improve airport traffic control, weather information and radio assistance.

Charles C. Conrad ir.

Astronaut Safe After Chuting From Navy Jet

AUSTIN, Texas, May 11 (AP). The third man to walk on the moon bailed out of his Navy jet last night and floated down to within 100 yards of the Bergstrom Air Force Base operations center

The T-38 aircraft of Navy Capt. Charles C. Conrad jr., 41, nose-dived into a field in the Texas hill country two miles from Bergstrom. Witnesses said only a tail section bearing the letters "NASA" was recognizable.

A spokesman at the Space Center outside Houston confirmed that the pilot was Conrad and that he was "okay." He underwent routine tests at Bergstrom. Capt. Conrad is scheduled to command the first skylab mission in space, now set for next April. It will last 28 days.

No cause was given for the crash. In response to a query, a NASA spokesman said he did no ask if the plane ran out of fuel on its trip from Dover, Del., to Houston via Dobbins Air Force Base near Marietta, Ga. The spokesman confirmed that Capt. Conrad was diverted twice from his original destination of Ellington Air Force Base at Houston.

U.S. Scientists Reveal Pl For Power-Harnessing La

MONTREAL May 11 (AP) -A group of U.S. scientists yesterday announced a new approach to harnessing nuclear energy by the use of lasers that could provide sufficient power to send a spacecraft to Mars and back in two weeks.

John Nuckolls, of the University of California's Livermore Institute, who is attending an international meeting of quantum electronic physicists, told a news conference here that the new method is only the first of three breakthroughs required to turn the laser fusion theory into a practical source of energy.

The other two hurdles are to manufacture the laser and the system of harnessing the energy,

Cheap, Clean, Inexhaustible

The theory was revealed earlier at the conference by Edward Teller, also of Livermore Institute, and one of the pioneers of the hydrogen bomb. He described the public announcement of the new. approach as the first major declassification in the until now topsecret nuclear energy field in 15: Years.

The method, called a superhigh density approach to laser fusion would compress matter to more than 1,000 times the density

Nixon Aides Regret Release Of Letter on Abortion Law

By Robert B. Semple Jr.

WASHINGTON, May 11 been made to solicit Mr. Dent's (NYT) - A high White House opinion about the possible conofficial said yesterday that President Nixon had not intended "Intentionally, or accidentally"to embarrass Gov. Nelson A. Rockefeller by voicing his support for efforts to repeal New York's liberal abortion law.

In a letter last weekend to Terence Cardinal Cooke, who has spearheaded the Roman Catholic Archdiocese of New York's campaign to repeal tha law, Mr. Nixon said that, while the abortion issue lay outside the scope of federal jurisdiction, he wished to associate himself "personally" with Cardinal Cooke's opposition to the law. The President also called the repeal campaign a "noble endeavor."

The letter, released by the archdiocese last Saturday, brought an immediate public outery that Mr. Nixon had improperly in-tervened in a local issue and, according to reliable sources, had deeply wounded the governor, Mr. Rockefeller is chairman of Mr. Nixon's re-election campaign in New York, and has recently voiced warm support for the President on a variety of issues. In an interview yesterday, John D. Ehrlichman, the President's top adviser on domestic affairs, said that he had approved the letter on the condi-

tion that it remain private. He said that someone else in the President's entourage—whom he did not identify had anthorized the archdiocese to release the letter He called this decision a mistake and described

it as "sloppy staff work." Similar self-recriminations were voiced elsewhere in the administration yesterday. One staff member close to Harry S. Dent. a key White House political adviser, said that no effort had

sequences of the letter. The side described the decision to permit the release of the letter as "someone's over-zealous attempt" to dramatize the President's views on abortion to New York's Catholic voters without regard to the sensitivities or position of the governor.

In addition, it could not be established yesterday that the White House had checked the letter with the Committee to Re-Elect the President, whose chairman is John N. Mitchell, the former attorney general. But some sources inside the committee thought that such a check had not been conducted

The New York State abortion law permits a woman to have an abortion on demand through the . 24th week of pregnancy. Gov. Rockefeller has propose that the legal abortion period be shortened to 18 weeks. But he has said flatly that he would vets any attempt at repeal.

N.Y. Senate Votes Bill ALBANY, N.Y., May 11 (AP) .-The New York Senate voted last night to replace the state's liberal abortion law with a much more restrictive one and sent the bill to Gov. Nelson A. Rockefeller, The governor has said repeatedly that he would veto it.

Rusk Gets College Post

The lower house already had

passed the measure.

DAVIDSON, N.C., May 11 (AP). Dean Rusk, the former secretary of state, has been elected one of the new at-large trustees of Davidson College. Mr. Rusk now teaches at the University of Vietnam crisis.

Mark Douglas-Home

Sir Alec Kin Arrives in U.K.

LONDON, May 11 (AP).-Mark Douglas-Home, nephew of British Foreign Secretary Sir Alec Douglas-Home, arrived here today after being deported from South Africa and said there had not been any reaction yet from his uncle or his family.

"I just hope they don't treat me the same way as the South African authorities have done," e told newsmen

Mr. Douglas-Home, 21, former editor of the controversial South African university magazine Wits Student, was deported because of a cartoon involving South African Premier John Vorster.

Hillenbrand in Rome

ROME May 11 (UPD .- Martin J. Hillenbrand, assistant U.S. secretary of state for European affairs, arrived today to confer with Italian officials. He came here from Paris, continuing the eight-nation European tour that Secretary of State William P. Rogers dropped because of the

man Catholic and shot him three times in the legs in what police said was a "typical IRA-type A single high-velocity sniper bullet tore through the throat of Pvt. John Ballard, 18, as he and other soldiers patrolled on foot

who was abducted by gunmen early today from his brother-inlaw's farmhouse at nearby Newtown Hamilton.

Mr. Bennett had been tarred Czech Pilot-Writer Honored by Russians PRAGUE, May 11 (Reuters) --A Czech former fighter pilot, who

wrote a book which is banned here because he fought in the West, has been decorated by the Soviet Union for his wartime services. The award was made at

ceremony at the Soviet Embassi here last night to Frantisek Fajtl, who fought with Britain's Royal Air Force during the first part of World War II before being transferred to the Czechoslovak forces in the Soviet Union.

Delayed Action

President Nixon's whole action with respect to the "interdiction" of North Vietnamese military supplies in the use of self-activating mines. They are explosive—but since they did not activate themselves for several days, there was a pause before the explosions. The diplomatic effects were similarly delayed; the military effects could not become apparent on the battlefield for weeks, if not months. And at home, it may be a long time before the full impact of the President's stroke can be appraised.

It did not, for example, produce the immediate surge of broad demonstrations created by the incursions into Laos and Cambodia. But that surge is building up. Mr. Nixon's Democratic opponents for the presidency were unanimously and immediately hostile to the interdiction effort. Their stand, however, cannot be evaluated, in precise political terms, until November. And the moves in Congress to curtail the powers of the presidency, whether in general or with respect to Vietnam in particular, do now seem likely to bear fruit in this session.

In other words, public reaction to the mining of Haiphong harbor will not have any earlier effect upon the fighting now in progress than the mining itself-unless the fluid diplomatic situation takes on some new aspect of crisis. But the long-range results of this climax to a long, and increasingly unpopular, exercise of executive prerogative will almost certainly result in the curtailment of that prerogative, whether by act of

There was something characteristic of Congress, by congressional amendment or simply by the weight of popular and congressional opinion.

It can be argued, for example, that the mining of North Vietnamese harbors constitutes no greater constitutional problem than the dispatch of drafted men into an undeclared war-which was done in Korea. as well as in Vietnam. Bot much has occurred since Korea, much since the defeat of the Bricker amendment—which sought to place constitutional restrictions upon treaties and executive agreements. The prestige of the White House has been diminishing, and fear of the President's powers as commander-in-chief have steadily increased.

But the eventual issue is not whether presidential authority is to be limited, but how national authority is to be executed. The Senate, a traditional source of authority, whether as ally or opponent of the President, has had no real spokesman since Lyndon B. Johnson. Rather, it has become the forum for presidential candidates, each more concerned to establish his individual image than to promote a constructive legislative program. The House is hampered by its size and two-year tenure. Mr. Nixon, in his efforts to sustain the international position of his office, has undoubtedly given a serious blow to its effectiveness at home. But will the alternative be simply another President, with another program, or some genuine re-creation of legislative vitality? Like the mines, this issue has been activated, but its action is delayed.

Mrs Meir's Trip: Sign of the Times

Mrs. Meir's trip to Romania is the first by an Israeli premier to an East European socialist country. It raises the off chance of Mideast mediation, since Romania enjoys normal relations with Cairo as well as Tel Aviv and has made a deliberate practice, for reasons of its own, of providing good offices to any international disputants disposed to use them. We would be surprised, nonetheless, if this chance of mediation were realized, Mediation as a diplomatic technique has been attempted extensively in the Mideast over the last three years. The Big Four, the Big Two, the United Nations and the United States have all tried and falled. They failed not for want of diligence or diplomatic skill but because the essence of the Mideast problem, far from being the role of outsiders, is the relationship of the states in the region. The outsiders can and should determine their own rules; the states cannot reasonably expect their own relationship to be shaped by anyone except themselves.

The visit to Romania, a state known most for its determination to set its own course, does suggest a change in the international atmosphere surrounding the Mideast question. The region has become—if only temporarily-tranquil enough to allow this particular exercise in diplomatic tourism. As the grumbles from Cairo indicate, Mrs. Melr's

tour represents a certain break in the international isolation which the Arab states and their patrons have attempted to impose on Israel (especially since 1967). Even Cairo's grambles do not carry very loud and clear. Other East Europeans may lack the latitude to receive an Israeli premier, but some are showing signs of wanting to soften the harsh face towards Israel which Moscow imposed upon them after the six-day war. The Soviet Union itself, though it has not restored diplomatic relations, has accepted a minimal level of diplomatic contact—to say nothing of the more complex relationship signified by the continuing emigration of Soviet Jews.

Demonstrably, the international community-including the United States and to a necessarily lesser extent the Soviet Unionis getting accustomed to the status quo in the Mideast. The region is not at the moment the "powderkeg" Mr. Nixon once said it was; hence the diplomatic fire engines are back in their stations. There is evidently a willingness, born perhaps of frustration as much as insight, to let Israel and, in particular, Egypt define their own relationship. But Israel is still without the association with its neighbor that is its heart's desire, and Egypt is without its lost land, and nothing can be taken for granted as long as that is so.

THE WASHINGTON POST.

South Asian Priorities

Hopeful prospects for peace in South Asia have been threatened by a flareup of fighting between Indian and Pakistani troops along their Kashmir cease-fire line and by indications that the leaders of both countries are failing to give planned negotiations the priority they deserve.

Diplomatic representatives of the two warring neighbors set an example for other nations in conflict two weeks ago when they sat down together in the Pakistani hill station of Murree to prepare for direct peace talks between their leaders in early June. The spirit of friendship and flexibility that surrounded the Murree meetings offered hope for eventual settlement of differences that have divided and bloodied the Indian subcontinent for more than two decades.

The Kashmir clash, which both sides have wisely sought to play down, violates the spirit of Murree. Further such incidents

could destroy all hope for the long-range settlement that had begun to appear possible. It is obviously imperative that political leaders on both sides exercise tighter control over military hotheads who are still spoiling for a fight.

The outbreak of fighting in Kashmir also underscores the importance of the earliest possible meeting between Prime Minister Gandhi and President Bhutto to settle pressing problems arising out of their recent war and to begin to resolve long-standing differences, particularly the volatile Kashmir question. A recent dispatch from New Delhi suggested that the Gandhi-Bhutto summit might have to be postponed until early July because both leaders have plans for foreign travel in June. Certainly neither can have business abroad that is more urgent than the joint solution of their common problems at home on the subcontinent.

International Opinion

Mining North Vietnam's Ports

Even Mr. Wallace's comment—that he hoped the decision was the right decisiontouched a tender spot. This is the growing concern at the way Army and White House intelligence is always wrong. Why has so desperate a stage been reached, even the silent majority is asking if the war has not been culpably mismanaged.

-From the Times (London). * * *

Because so much is at stake for the Ruscians and their allies it is not surprising that they are taking their time in orchestrating a reply to the President's latest move.

Clearly the pressure must be felt in Moscow to answer with a move at least as radical as that made from Washington last Monday. This could mean anything from an unexpected development on the battlefield to the angry cancellation of the coming "summit."

Certainly it is difficult to conceive that the Russians will receive the President as though nothing significant had happened. The political capital that the Chinese would make out of that, and the subsequent disruption to the Communist movement, is something the Russians could not coun-

-From the Financial Times (London).

Seventy-Five Years Ago

WASHINGTON, D.C.—Honduras has been the scene of many revolutions, few of which have been unsuccessful. Gen. Policarpo Bonilla came euccessful revolution. He has been in office four years. He is a Liberal in politics, and his ambition has been to give the people the greatest measure of liberty possible. Naturally, there is opposition to both the man and his

Fifty Years Ago

LONDON-News of the marriage in Moscow of Miss Isadora Duncan, the famous dancer, who has been making a long stay in Russia, has been received here by Mr. Harle, who was until a year ago her secretary and manager and is now appearing in "Cairo" at His Majesty's Theatre. According to a cable message received by him, Miss Duncan has become the bride of Serge Yessenin. The bride and groom are now reported to be in Berlin.

Triangulating the Circle

By C. L. Sulzberger

PARIS-Unable to square the Vietnamese circle, President Nixon apparently hopes to triangulate it, Addressing himself particularly to Russia and China. Hanoi's great power backers, he opened wider the doors marked 'war" and "peace" and seemed to suggest a choice, Judging by their actions, not their protestations, the Communist behemoths have so far chosen peace.

Nixon offered both an implicit pledge of more generous terms for compromise and an actual demonstration of tough resolve if this pledge is ignored. Should Moscow and Peking accept the embargo imposed on arms shipments or do nothing violent to try and break it, Washington hopes to enlist their tacit support in bringing the conflict to an

Just what this could mean ishard to say. Britain urges Russia to join in reconvening the lapsed Geneva Conference on peace talks are suspended-butnot dead.

Played Quietly

The diplomatic game around the bloody battlefield is apparently being played in quiet among Washington, Moscow and Peking rather than near the Paris discussions. Only sound and fury emerge from the stalemated conference's periphery.

One is led to suspect that Moscow still plans to welcome President Nixon this month, is calmly continuing the SALT negotiations and wishes to avoid a naval confrontation with the United States. Thus a Kremlin decision appears to have been taken to join in constricting Vietnam's global

One cannot help wondering if a preliminary undertaking to limit these risks was not agreed opon by Brezhnev and Kissinger before Nixon announced his blockade. Secret contacts between Washington and Peking have also been exceptionally active. It is safe to assume that American

itary activities would be kept adequately far from China and that Chinese concern with Southeast Asia is understood.

The policy of triangulating the interests of the United States, the Soviet Union and China involves imagination and risk. However. Washington claims it is making insistent efforts to limit that risk and describes it as "acceptable,"

Caution

Zealous aviation and naval commanders over and around North Vietnam must now be cautioned to avoid anything that might enrage either Moscow or Peking. This adds a difficult but not insurmountable responsibility to officers in charge of the airsea operation designed to slowly induce a more compromising mood in Hanoi.

The immediate problem facing the United States and still threatening its new effort to triangulation is the problem of the battlefield itself. One knows that Gen. Gisp, a great captain, is painstaking in prepositioning the supplies his forces require. Therefore it is axiomatic that large stockpiles still exist in and near South Vietnam on which Giap can draw for at least another month.

If during that time, the Communists are able to roll up Saigon's forces at Hué, in the Central Highlands, or near the capital itself, the entire South Vietnamese political and army structure might crumble before Nixon's new diplomatic effort has even a chance to take effect.

Should Giap produce a climactic victory during the next few weeks he could disintegrate the Saigon state. Then no diplomatic settlement—except ratification of chaos—would be left, either among the three great interested capitals or in Paris or London. On the other hand, if Giap is

not able to destroy southern defenses with fresh hammer blows, the American naval blockads would be felt and Hanoi would have to reduce its sights.

– Letters ·

Foes of RFE It was very interesting to note

from the article by Rowland Evans and Robert Novak, (IHT, April 24) that the Polish government had set up a secret group within Poland's Washington embassy to instigate opposition towards Radio Pree Europe, with \$3 million at their disposal to asgist in this work. It is surprising that someone

hes not already pointed out the possibility, almost certainty, that those "full" and "bright" people opposed to RFE and Radio Liberty have not been left unaided in their efforts. While it would be difficult to believe that any of the funds mentioned above end directly in the hands of the small group in Washington who have been fighting tooth and nail to close down these two organizations, it appears quite certain that the helpful information to American foes of RFE supplied by the Polish Embassy outweighed by far, in their estimation, the favorable report submitted by the Library of Congress investigation team. If this group, headed by Sen. Fulbright, should finally succeed

in their disgraceful attempts to stop the work of RFE and RL, they should at least be given the "Order of Lenin" or the title "Hero of the Soviet Union" which they would certainly deserve. ANTHONY GOODART.

Action in Vietnam

Nixon's Long Decision

By Robert B. Semple Jr.

WASHINGTON.—Even though viction that the prestige of he week ago toward his decision. to mine the harbors of North Vietnam, President Nixon did not give the final signal to the day—seven hours before his speech to the nation and minutes after a final, sober private talk with the two men who were closest to him during his delib-

They were John B. Connally, the secretary of the Treasury, and Henry A Kissinger, the President's national security adviser. Earlier that morning, they had attended a meeting of the National Security Council When they returned to their offices after noon they found on their desks a summons to return to the Oval-Office. --

It was a brief meeting but it said much about Mr. Nixon's moods and his troubles Of course, he siresdy had made up his mind to take stern action to stem the flow of supplies to the the decision in privacy and he had drafted the speech by himself at Camp David, Md., during the weekend. The council meeting that morning had been a for-

But what he wanted to do in those brief moments with his two advisers was run through it all again, to talk about the impact on the Russians and on the American people, before giving the final, irretrievable order.

No Place to Go As such, this brief session symbolized and perhaps even encapsulated the uncertainty, frustration and finally the sense

of having no place else to go that had gripped the President and the White House for nearly week before the speech According to a fragmentary reconstruction of events pieced together from private sources and public statements Tuesday, Mr. Nixon began thinking seriously of the mining strategy when Mr. Kissinger returned from Paris on May 2 and told the President, on an evening cruise down. the Potomac on the Sequoia, of .

his unsuccessful session earlier

that day with Hanci's chief ne-

Mr. Kissinger reported that, despite earlier optimism, Hanoi's demands remained unchanged while hints from the Russians would be entirely happy about that they might be able to induce the enemy to talk seriously had proved to be empty.

gotistor, Le Due Tho.

Last week, Mr. Nixon conferred frequently with Mr. Kissinger and, in his private office in the Executive Office Building, held rejecting at one point a suggestion from elsewhere in the bureau-cracy that he try to stem the flow of supplies by landing South Vietnamese Marines in the North.

In Mr. Connally's presence, he talked mainly about his philos-America's role and responsibility, and about his con-

he began to move more than office and the influence of the nation in world councils depend ed upon the manner in which he ended the war in Victoria These are convictions that he military to execute the plan said to hold as strongly in private until nearly 2 p.m. (EST) Mon- as in public, Mr. Connally did in challenge them and indeed

inforced them. According to his press secre-tary, Ron Ziegler, the President consulted others inside and one side the White House, But by the end of last week, he saw hi options disappearing.

The negotiating track to pend seems to lead nowhere; the prospects for Vietnamization, the alternate strategy of disengage ment in which he has poured much energy for three years seemed scarcely brighter. In me words of one alide he saw "the foreign policy of the United States resting on the backs of the Victnamese," and suddenly their seemed far less strong than he had earlier advertised them. had earlier advertised them

He retreated to Camp David hat Friday evening, keeping in touch with aides by telephone. Monday afternoon, before he gave his speech, he asked for a critique of what he had written there from Raymond K. Price jr. the head of his speech-writing team bot did most of the editing him-

When he had issued his order and finished his speech, Mr. Nixon expressed no further public doubts at a briefing for congressional leaders early Monday eve ning in the Roosevelt Room in the White House - He seated himself between plaques of Franklin and Theodore Roosevelt and began by saying:

"Let me come directly to the point and tell you of a decision I have had to make."

Then he summarized the speech he was about to deliver, ran through the options he had rejected, and asked according to one aide present "gently" for their support. The men around the table, poker-faced, did not react. But Mr. Nimon had not by his manner invited reaction. The telegrams that came to the

White House in vast numbers Tuesday were said by the White : if House to be running four to one in Mr. Nixon'e favor. Mr. Ziegler characterized the President's mood as determined and resolute." But there was also a sense at the White House of wariness about the future and

weariness about the past.
Perhaps Mr. Klasinger summarized it best Tuesday morning at a briefing called to elaborate on the speech. When Peter Lisagor of the Chicago Daily News seemed confident that his latest veral long chats, with Mr. Con- move would work in view of "tinnally. With Mr. Kissinger, he long history of misassessment talked philosophy and tactics, about the Vietnam war." It seemed to sigh and shrug an look painfully tired, and said: "Peter, these decisions have 1 be seen in the context of th

choices that are available . This decision [was] reache prayerfully and on the best belie that it will work, but only event pwill prove whether it will."

CBFEET. "Il Caso Mattei," Rosi's latest film unveiled at the festival last night, we have a sup-posed biography of Enrico Mattei, well-known public figure in Italy during the post-war years. He rose from resistance leader to appointed to the AGIP, the state enterprise of oil prospec-tion. He died when his plane crashed on arrival at the Milan airport in 1962 and it is hinted here—as elsewhere—that he was

The material is certainly serviceable, but Rosi, as is his wont, has made it almost exclusively into a series of business meetings. One rarely leaves the conference room and whatever happened to Mattei, there is no doubt that the film talks itself to death. The general impression it leaves is of having attended not a motion picture but of having become a member of an oil company board ... without pay. Only in the very last minutes does the film come alive cinematically with the fatal flight. These scenesdeparture from Sicily in the

BBC Wins Prize for Ulster News

'Bloody Sunday' Program's Subject

CANNES, Prance, May 11 (Reuters).-The British Broadcasting Corp. report of "Bloody Sunday" in Londonderry today won the grand prize for news coverage at the eighth international television reportage competition here.

John Bierman and Peter Stewart were the reporters in the winning entry, "Londonderry Riots," a diary of events on the day last January when 13 people were shot dead after an illegal merch.

Twenty-five countries took part in the four-day competition. The jury of 28 adjudged the BBC report the "most authentic" of six entries dealing with Northern

Netherlands

Netherlands television won the features grand prize for a program on a religious sect which hans its members from accepting medical treatment. Holland also won a special prize for the country entering the best selection of pro-

Japan won the prize for a country showing several films on the same event. The films, made by rival companies NHK and Puji-TV, showed "in aggressive and vivid style" the police siege of a house where militant leftists entrenched themselves after killing several hostages and policemen, the jury said.

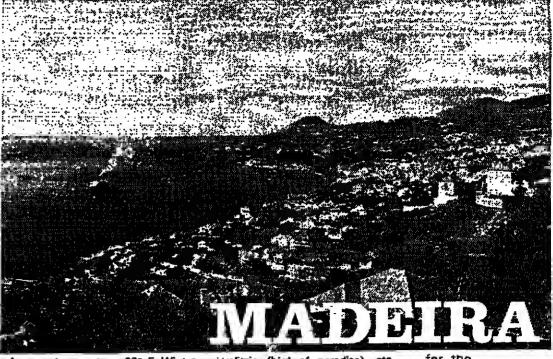

The best live report prize was awarded to France's state television second channel for an interview in Bolivia with Klaus Altmann, who was alleged to be Nazi war criminal Klaus Barble, with comments by French survivors of Nazi torture.

Brazil Stops Showing Of Film at Cannes

CANNES, May 11 (Reuters) .-The Brazilian government has refused permission for the showing of a Brazilian film at the Cannes Film Pestival, organizers

of the show said today. The film, "Frata Palomares," made by Andre Faria, is an allegorical and poetical study of violence and forture in an unnamed country which is generally believed to be Brazil There were unconfirmed reports

here today that Mr. Faria's passport had been withdrawn by the Brazilian government and that he was unable to leave the country.

AVERLEY ROOT-

The Elusive Origins of the Asparagus

RIS (IET)—Of all the widely known vegetables, few have for the wild plant is shared in Spain's Estremadura, where youngsters lined up along the roads tempt passing springtime tourists with bunches of asparagus they have gathered themselves. do, for the name given to it is ambiguous, but where it came

We notice its presence in France in the 17th century, but don't

v how long it had been there. It seems to have arrived in and at about the same time, but from where? Widely naturalized he United States, it must have been brought there by someone, it is not a plant of the New World, but by whom and when? t is et least agreed that asparagus is a native of the north Therate zone of the Old World, but it has not been placed isely within it. The area where a plant grows wild often reveals it appeared originally, but in the case of asparagus, this rion is less of a clue than a puzzle. There are two such areas rurope, one along the coasts and on the sandy soil of the south ngland, the other on the Eussian steppes. It is difficult to see ying birds would not have done it, for instance; birds migrate in h-south, not west-cast. It seems probable that in one of these

with, but rather the escape of a cultivated vegetable from gardens per fields, and its reversion there to its natural state.

Crest places today's wild asparagus does not represent an aboriginal

Likelier of the two European wild asparagus areas, it seems likelier that as England which first received asparagus in its cultivated state, wild variety developing later. I know of no early record of its ence in the British Isles, but there is an undated reference, ably of the 17th century, which tells of experimentation by cooks "an exotic vegetable called asparagus." This would leave the an area as the native heath of asparagus, unless we assume that too the wild plant is an escapee from civilization.

The theory that it was in Russia that asparagus originated is not ently improbable and is consistent with the fact that the plant is to have entered the Mediterranean basin from its eastern It was apparently unfamiliar to the Greeks when we first hear al meaning than the specific one of asparagus, which vells the for they called it by a name which already existed with a more ry of the plant instead of revealing it.

he Greek word asparagos meant any plant whose edible portion the form of a stalk. It was used oftenest to designate wild letwhich grew around a central stalk, the part the Greeks ate to neglect of the leaves. Apparently asparagus entered the Greek later than lettuce was called by the name of the already known or plants which it more or less resembled, and only later sed the name "asparagus" for itself alone.

The Greeks were not the first Eastern-Mediterraneans known to 88 asparagus. The Egyptians grew it too and considered bunches

a suitable offering for their gods.

rom the East, asparagus presumably progressed westward to
un territory, though again we have no record of its arrival there; e seems to have dogged asparagus throughout its history. Thus Caesar made its acquaintance in Lombardy, and set down reference for it with melted butter, the way in which it is

often served today in that region, which has a special cult for hiny, who liked asparagus, was surprised by stalks so fat that of them made a pound; but this was not a record, for stalks evenna asparagus often weighed 10 ounces each. Martial wrote no better asparagus than that of Ravenna was grown any-"Mollis in aequora quae crevit spina Ravenna non erit ingratior asparagis." Ravenna asparagus was not only the hest cient Roman times, it is the best in Italy today, one of many ples of sestronomic continuity.

though the cultivation of asparagus had thus reached a high early in the history of the Roman Empire, many Romans red the wild variety. Juvenal, in his 11th satire, tells how he an invitation to his friend Persicus to visit him in his country by promising him wild asparagus: " . . . et montani/Asparagi, quos legit vilica fuso" (mountain asparagus, which, leaving pindle behind, the farmer's wife gathered). Many Italians prefer the slender dark-green stalks of wild asparagus ragi di campo), with their slightly bitter but rich flavor, to litivated variety (asparagi di giardino); the young shoots are nes esten raw. Serdinians consider wild asparagus superior cultivated variety, and Trieste also dotes on it. This liking

Asparagus seems to have gone into eclipse during the Middle Ages; nothing is heard of it. It reappeared, sometimes under the name of "ram'e horn." during the Renaissance, when Tuscany was credited with producing particularly luscious varieties. Italy apparently reacquired asparagus well before France, for it entered French history only with its appearance on the table of Louis XIV, after Jean de la Quintinie, better known for his work with fruit, planted asparagus for the first time in hotbeds to assure the king a year-

round supply of the vegetable. From that time forward, asparagus held a place of honor on the French menu. An example of the esteem in which it was held was provided by the Encyclopedist Bernard de Fontenelle, who, surprised by an unexpected visit from the Abbé Terrasson, who asked if he might stay to dinner, grudgingly agreed, grumbling that the abbé would be depriving him of half of his favorite asparagus. He ordered that the churchman'e portion should be served with the white sauce he liked, and his own with the oil dressing he preferred. Just before dinnertime, the abbé collapsed, floored by apoplexy. Fontenelle

rushed to the kitchen. "All the asparagus with oil!" he ordered.

In the following century, the writer Charles Monselet, whose works include two gastronomic books, "The Poetic Cook" and "The Gourmand's Almanac," committed his feelings about asparagus to a poem in which he called upon his readers to celebrate "this prudent vegetable": noted his own preference for the tips, "crumchy, but not too much"; expressed the opinion that hig meaty stalks were "stupid"; and admitted, though with a touch of disapproval, that asparagus tips might be included in scrambled eggs. For this he was rewarded by having a dish (not with scrambled eggs) named

asperges à la Monselet... Asparagus officinalis, the species that is most frequently eaten, clongs to the Liliaceae, a versatile family of 233 genera and some 2,700 species, including, as the name indicates, the lily, but also more workaday members such as onion, leek and garlic. Asparagus is an early spring vegetable, which needs to be eaten young, for it quickly becomes woody. Brillat-Savarin included it in a list of vegetables that have to be consumed before they have reached maturity. It is refreshing, healthy food but with little nutritive value: 100 grams contain only 10 calories. It is almost all water and cellulose, but does contain vitamins A and C, especially the latter, concentrated in the tips. It is normally easy to digest, provided the cellulose outer coating, which can produce intestinal troubles, is scraped off, but its digestibility varies greatly with tenderness and freshness.

Inevitable

It was inevitable, given its shape, that asparagus should have been considered an aphrodisiac by the ancients, who believed that the form of a plant betrayed its qualities. The Greeks thought it was and had an alternative name for it which meant "desire"; yet Dioscorides wrote that it made women sterile. The Arabs recommended daily consumption of asparagus first boiled and then fried with egg yolks and a sprinkling of spices to stimulate the senses. In Elizabethan times it was taken for granted that asparagus was aphrodisiac since its shape "manifestly provoketh Venus." lat-Savarin, without expressing any direct opinion, seemed to take this effect for granted when he wrote that dreaming is provoked by all "lightly exciting" foods and named asparagus among them. Vaucluse asparagus (asperge vauclusienne) is not asparagus at

all, but one of those joking names so frequently applied to foods; it is a Provencial dish of artichokes stuffed with chopped ham and herbs. The asparagus pea is the Goa bean, and asparagus broccoli

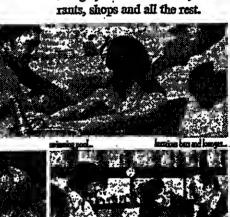

Alexandre Dumas maintained that carnivorous animals, including the caf and dog like asparagus. Belluno, Italy, makes an asparagusflavored liqueur, a dubious proceeding. Asparagus gave the ancient Romans and the modern Italians a common saying: "quicker than you can cook asparagus," equivalent to our: "quicker than you can say Jack Robinson," evidence that Italy does not like its asparagus overcooked. In France, a tall thin person is an asparagus, and in that language also, asparagus defines, in architecture, an ornamental motive which encloses the base of a column in a half-opened bud, frequently employed in the style of Louis XVL

Waverley Root, from a book soon to be published by Simon and Schuster, entitled, "Food: An Informal Dictionary."

For your next business trip:

Holiday Inn understands travelling businessmen.

Sometimes you're free enough to take advantage of all the convenient, exciting features our hotels have to offer: the pools, bars, lounges, conference rooms, restaurants, shops and all the rest.

...and the right to ignore them all.

But other times what you need most is simply a good rest. So we provide that too. In huge rooms with comfortable, oversized beds, phone, free TV, tiled bathrooms with showers, year-round heating air conditioning, wall-to-wall carpeting, even free ice from machines at convenient locations.

Every Holiday Inn has a staff specially trained to look after busy executives like you. To make you more efficient, while helping you

Make your reservations in minutes via the Holidex computerized reservation system by calling any of the numbers below.

We'll take good care of you at Holiday Inn...even if you spend most of your time with us asleep.

This view is "beside the point," asserts one key European official in Montreal for the American Bankers Association international monetary conference. While other leading industrial countries may not be inclined to openly declare it, he contends, their governments already do wish to see their

surpluses gradually reduced.

What other governments want, the official says, is for payments imbalances to be wiped out in a way that will not cause sudden slumps in their exports, with con-sequent job losses in politically

ensitive export industries. They would rather see increases in their importing from the United States as the main way of leveling out flows of money, he explains, giving them time to help their export industries adjust to relatively slower growth of sales to the United States,

Reluctance Cited

Mr. Connally's view is probably based on the initial reluctance of other nations to raise their cur-rency rates last autumn, a participant in the talks suggests. But this hesitation was never intended to perpetuate United States payments deficits, he says, noting that by the time of the Smithsonian accord of last Dec. 18 other nations not only went along with U.S. devaluation of about 8 percent but some made additional upward revaluations to bolster the favorable effect on the United States

Europeans understand, sources indicate, that the United States desires a much stronger payments position before entering the crucial phases of negotiations on a

new monetary system. will probably be the middle of 1973 before the United States can expand its exports enough to secure a solid trade surplus, they stimate, partly because it will take that long for stimulatory policies in Britain and other countries to improve their demand

for U.S. goods. But with relatively less inflation than other nations and with an unusual amount of excess plant capacity that can be put to export production, they figure, the "tornaround" could come more rapidly than in some other

The favorable effect on the overall P.S. payments, position could be sharply enhanced, they add, once the trade improvement bolsters confidence and triggers a massive return flow of dollars for investment in the United

Britain's Deficit In Trade Balance Declined in April

LONDON, May 11 (Reuters). -Britain's overseas trading in April resulted in a deficit of £53 million, the government announced today.

This followed deficits of £81 million in March, £32 million in February and 12 million in Jan-uary—the first time for three years that the buying and selling of goods overseas has resulted in loss for four consecutive

On a balance of payments basis, however, Britain is just about holding its own this year. The loss on direct trading has averaged 242 million a month since January but this setback has been more than offset by a monthly surplus of over £50 million from invisible trade million such ae shipping, insurance and tourism.

Exports Strong

One encouraging note in today's announcement was that the value of exports in April £748 million—was the second highest monthly total this year, and was up by £27 million from

The improvement was mainly due to increased buying by the United States and Europe. There was a marked fall in buying by customers in the sterling area. especially Australia, New Zealand and South Africa.

The cost of imports in April fell by £1 million to £801 million.

FINANCIAL NEWS AND NOTES

ICL Names Sperry Rand Executive

International Computers Ltd. (ICL), of Britain, amounces the appointment of Geoffrey Cross, an executive of Sperry Rand Corp., as its managing director. Mr. Cross, who is 38, was Sperry Rand's vice-president and general manager for marketing and service activities in the Americas. He succeeds A.L.C. Humphreys, who has been named deputy chairman of the company, the only major British-owned computer manufacturer in the country, Mr. Cross is a naturalized U.S. citizen. He was born and raised in Britain.

Firms Eye Japan Plane Study

Canadair Ltd. and Rolls-Royce (1971) Ltd. are seeking to take part in a study proposed recently by Lockheed Aircraft Corp. on the feasibility of building a new jet airliner in Japan. The plane would be a medium-sized twin-jet airliner equipped with essentially the same Rolls-Royce engines used for the Li011 TriStar eirbus. Japanese officials say the proposal for a joint feasi-bility study will be considered along with other plans already under consideration. Canadair is a subsidiary of General Dynamics Corp.

U.S. Steel Companies Optimistic

U.S. Steel Corp. believes that if steel industry volume this year climbs the projected 7 to 8 percent, its own volume "should rise about 10 per-cent," Edwin H. Gott, chairman, reports. The reason, he says, is that "many of the products that will be in greater demand this year also are the ones which we can produce in greater vol-He was referring to shipments of steel products to the capital goods sector, including structurals and plates, areas which have lagged behind the recovery in the rest of the steel mar-

ket. Meanwhile Republic Steel Corp. says it is experiencing a turnaround from the earnings decline of 1971. W.B. Boyer, president, reports that "our business outlook this year is brighter." adding that the new voluntary steel import limitation arrangement should have a beneficial effect on Republic's business over the next three

General Dynamics Sees Sales Drop

General Dynamics Corp. expects a further sales decline in 1972 to about \$1.6 billion from last year's \$1.87 billion, David S. Lewis, chairman, reports. "We believe 1972 will be a profitable one, but I don't believe I should attempt any predictions on what those earnings will be," the executive says. He notes the company achieved a profit last year despite a substantial sales drop from \$2.22 billion in 1970. Net income last year was \$23 million, or \$2.09 a share, compared with a loss of \$6.5 million in 1970. Mr. Lewis indicated that a resumption of dividend payments by the diversified company isn't likely in the near future.

Lisnave Weighs Bahrein Project

Lisnave Estalerios Navais de Lisboa eays it is studying whether to become operator of a 500,000ton supertanker repair drydock planned for Bahrein. Earlier reports from Gahrein said Lisnave, a subsidiary of Cia. Uniao Fabril, a Portuguese company, had been chosen by the Organization of Arab Petroleum Exporting Countries to replace Vickers Ltd. as the operator for the project. Vickers withdrew after it was dis-closed that it also was doing work for Israel. Last year, Lisnave inaugurated what has been called the biggest drydock in the West on the south bank of the Tagus River opposite Lisbon. The dock can accommodate tankers of up to one million tons.

Trend Is Worrying Europeans

Wage Gap Narrows Between U.S., Others

DJ),-After years of widening, the gap in wage rates between the United States and its major competitors is narrowing. This may make U.S. goods more competitive, help the dollar and cause some U.S. companies to reconsider plans for expansion in Europe.

For Europe, the trend is worrisome. "Our wages aren't just rising, they are soaring," says a man at Common Market head-quarters in Brussels. "This not only means American exporters are going to be more competitive in our markets; they will be more competitive in third markets, too."

The statistics are dramatic, In Italy, average total compensation in manufacturing soared to \$1.81 an hour in 1970—nearly triple the 1980 rate. The U.S. figure ad-vanced to \$420 an hour, a rise of 59 percent from 1960.

Last year, the Italian figure again rose faster than the U.S. rate. This time, however, the gap narrowed to \$2.18 an hour from \$2.39. Of course, last year's figures are affected by the world by inflation. But the main point is that wages in many foreign countries today are high enough that a big percentage gain also produces a big absolute gain, too -big enough to narrow the gap with U.S. rates.

The following figures for the average hourly total compensation of production workers in manufacturing detail the wage trend for key countries. All amounts expressed in dollars, and the 1971 figures are adjusted to reflect the currency realignment of late

hire nine hours of labor in Japan for the cost of only one in the United States. But by last year, the U.S. hourly wage bought only three hours of work in Japan

The rising cost of wages is, of having its effect profitability. Rollel-Werke AG, the West German camera maker, is shifting two thirds of its domestic production from Braunschweig to Singapore. In addition, the company is building two more plants to handle still more production there. The company says high wages in West Germany and low wages in Singapore are the main reasons it has shifted operations. Since the move, Rollei-Werke has been able to slash prices 25 percent, an official says.

But West Germany is not alone. To escape sharply rising wages at home, a big British manufacturer shifts some of its production to poor southern

European nations. In Italy, Montecatint Edison announced a \$235 million loss for last year. Write-offs ac-counted for a big chunk of the deficit, but rising wages also

Dunlop Earnings Rose 31.8% Last Year

LONDON May 11 (AP-DJ) --Dunlop Holdings Ltd. net profit rose 31.8 percent last year, the tire producer reported today. Dunlop said net attributable

profit was £11.6 million (\$30 million), up from £8.8 million the previous year. The company announced a final-

dividend of 4 19/24 pence, making a total 8 1/8 pence for the year, unchanged.

Dunlop said sales rose 3.9 per-cent to £585 million, up from £558 million in 1970.

The main reason for the trend is easy to see. The OECD figures below show that the average annual percentage increase in earnings lately has been far steeper in other industrialized

House Rejects . Move to Set Import Quotas

WASHINGTON, May 11 (AP-DJ).-The House of Recesentatives. Dy a vote of 211 to 192, today rejected protectionist amendments to a pending bill that would increase the U.S. minimum wage

The House voted to adopt a substitute for the measure, previously cleared by the House Labor Committee.

The committee's bill provided authority for import quetas, higher tariffs and other restrictions on goods imported from any country with labor standards below those of the United States. The substitute bill, adopted tentatively by the House, deleted from its provisions any of the protectionist features in the original measure.

After taking this action, the House approved an increase in the minimum wage to \$2 an hour, from \$1.60 an hour,

Spain Vetoes Curhs

MADRID. May 11 (AP-DJ) .-Spain has told the United States will not limit its shoe exports America, press reports said today. Official sources confirmed the reports. Commercial Ministry officials reportedly stressed that Spanish shoe exports account for only 3 percent of the shoe market in the United States, and said a cut would severely damage the Spanish shoe industry.

These rates are based on local currencies and, of course, do not reflect the realignment of exchange rates internationally:

1963-69 1969-71 West Germany 7.1 Britain 6.7 United States 4.5

Many factors cause this steep inflation abroad, Most wealthier European countries have long suffered from labor shortages that have tended to push wages up. While recent economic slowdowns have increased unemployment rates, economic woes in Europe have been less severe than the recent U.S. recession.

Wage-Price Spiral

Moreover, just as wages put pressure on prices, the steep rise in European prices prompts workers to demand hefty pay in-creases. In Britain, for instance, prices have been rising at a 10 percent annual rate. So Britain's strong and militant labor unions push for raises of more than 10 percent, and they often get them. In many European labor agreements, cost-of-living increases antomatically prompt wage in-

Another big reason for the recent narrowing of the wage gap between the United States and other major countries is the currency realignment. This can be particularly significant for international companies. The December 1971 change in world currency parities actomatically boosted the dollar cost of hiring workers abroad up to nearly 17 percent, depending on the country involved.

Such a change alone could discourage companies from establishing plants abroad to get cheap labor. Keeping the capital inside the United States would strengthen the dollar by helping the American balance of payments.

The U.S. balance of payments also will benefit, of course, to the extent that the narrowing of the wage gap belps make U.S. goods more competitive with foreign goods. In most cases. wage rises are boosting costs of foreignmade goods.

But you cannot always count on it. Lionel D. Edie & Co., inyestment advisory subsidiary of Merrill Lynch, Pierce Fenner & Smith estimates Japanese wage will soar about 13 percent this year-but thet productivity could rise as much as 15 percent. "Hence there may well be a 2 percent net fall in the unit labor cost of manufacturers," the comрапу зауз.

NYSE Urged Big Board Prices Rise To End Fixed But Mood Stays Wary Service Rates

Worry Over Bad Effect Baseless, Study Says

By William H. Iones

WASHINGTON, May 11 (WP). -The New York Stock Exchange should abolish fixed commission rates because they have tended to produce inefficiency in the stock markets and to support weaker brokerage firms while depriving investors of cheaper services, eccording to a new study made public yesterday.

There is 'little basis' for concern about adverse consequences from competitive pricing, said Wharton School finance profes-sors Irwin Friend and Marshall E. Blume in their study, made possible with a grant from Salomon Brothers.

Fixed minimum rates for stock transactions, with few exceptions. have been applied by Big Board member firms since 1792. The exchange and most member firms still support a minimum rate structure to protect both the industry and small investors from what they see as declining services or price wars. Lower Costs

In their study, the professors argue that costs for almost all brokerage firm services would (on average) drop. Moreover, they say customers would pay only for those services which they wanted and "no significant group of investors" would be worse off than now.

There would be other consequences, said the authors, some of which would adversely affect less efficient stock brokerage firms. Among the key findings;

• Institutional and large individual investors probably would benefit more than small investors who acquire their stock directly rather than through a financial intermediary. But, the report says, the smallest individual investors typically own their stock through such an intermediary mutual fund, for example) "and would benefit immediately through lower institutional transaction costs."

• In a transitional period between the status quo and the absence of fixed commissions. which should start "without excessive delay," new rates on very small orders-up to \$1,000 or so-placed directly by investors may be as high or higher than now. In the long run, such investors will gravitate to firms most efficient in handling their business and "it is possible that rates for all orders would be lower than they are now."

• Profitability of the NYSE brokerage community would probably be lowered, "since the monopolistic component reflecting the exchange's fixing of prices would disappear." Growth in demand, however, associated with more aggressive competition and reduction in service charges, would offset at least part of the decline.

By Alexander R. Hammer

NEW YORK, May 11 (NYT).— 10:30 a.m., the average showed Prices registered a cautious advance today in continued slow Brokers noted that investors trading on the New York Stock Exchange.

They opened with a small decline, then moved slightly higher until noon. From that point on there was no definite trend in

At the close, the Dow Jones industrial average finished with a gain of 3.76 at 934.83.

Nixon Boosts Oil Imports By 15 Percent

WASHINGTON, May 11 (Reuters),—President Nixon oday authorized a 15 percent increase in petroleum imports for the remainder of the year to fill a gap caused by lagging production in the United States.

He issued a proclamation permitting increased shipments from Canada, Venezuela and the Middle East. Canada's quota of 540,000 barrels a day was increased to 570,000 barrels a day, while imports from Venezuela and the Middle East were increased from 965,000 to 1,17 mil-

Hon barrels a day. The President said he had approved the increases because of a finding by the Office of Emergency Preparedness that they would not adversely affect U.S. national

security. U.S. consumption of petroleum is about 15 million barrels a day.

U.S. Retail Sales Off 1.5% in April

WASHINGTON, May 11 (NYT). —Retail sales slipped back in April from the record level of March but remained higher than any month prior to April, the Commerce Department reported resterday.

Sales were estimated on a preliminary basis at \$25.85 billion. seasonally adjusted, compared with \$36.4 billion in March. The March figure was revised upward by \$400 million from the original estimate a month ago. The April figure, while

15 percent from March was 7 percent above sales in April a the Pebruary-April period.

retail sales averaged 2 percent above the preceding three-month period and 8 percent above the February-April period a year ago. The report estimated April sales of durable goods stores at \$11.7 billion, down about \$300 million from March. Nondurable

sales in April were \$24.1 billion,

down \$200 million from March.

were remaining cautious in reaction to the Vietnam situation. The Soviet Union's reply to the U.S. decision to "mine North Vietnam's harbors and bomb supply lines from China" was considered mild, they said. However, they added, investors were still concerned what the Chinese gov-

BRIDGE

By Alan Truscott

would have

viting North to show belated

been impregnable, but four

spades was risky. South could

see nine tricks, and needed one

diamond trick for his 10th.

Against passive defense this

would have been feasible, but the

defenders put him to the test at the second trick: East returned

the diamond deuce after winning

which would have been right in

no-trump, but was wrong here.

West took the diamond queen,

returned the ten, and ruffed the

third round of diamonds, setting

the contract before the declarer gained the lead.

If South had thought a little

harder, he might have found the

right solution. A player will sel-

dom lead from a queen when the duriny to his right has the jack

-the danger of helping the de-

clarer is too great. However, an

underlead of an ace in such a

situation is relatively safe and is

often tried. On this reasoning

South routinely played low,

spade support.

Three no-trump

the club opening.

Perhaps the most common bidding error made by amateurs is bidding a five-card suit twice. For the opening bidder to rebid a five-card suit is seldom right. and for the responder to do so

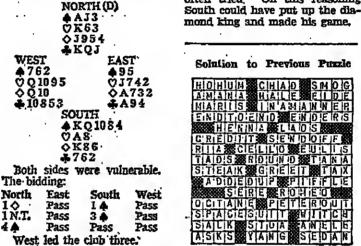

is almost never right.
South made this mistake on the diagramed deal, and as a result landed in an inferior game contract. In addition, good defense gave him an opportunity to misjudge the play, and he

North was not quite strong enough to open one no-trump, and followed the normal course of opening one diamond and rebidding one no-trump. South's jump rebid to three spades the responded one spade on the first round) should have been based on a six-card suit—with his hand he had no reason to place such

emphasis on spades.

If he felt hesistant about three no-trump, the bid most experts would choose, he should have jumped to three diamonds, in-

BOOKS.

THE RISE OF THE UNMELTABLE ETHNIC By Michael Novak. Macmillan. 321 pp. \$7.95.

Reviewed by Thomas Lask

MICHAEL NOVAK's essay on what he calls "politics and culture in the seventies" is an argument for establishing ethnic groups such as Poles, Italians, Greeks and Slavs into a new liberal constituency, a little like the one that existed in F.D.R.'s day. As a man of liberal persuasion himself, he is not willing to concede these ethnic peoples to the conservatives, although he admits that they have either been pushed into rightwing postures or allowed to assume them by default. The Greeks, Italians, Slavs and Poles have been lumped together as hardhats and thus have earned the scorn of the intellectuals and old-line Americans, many of established social and financial position who have always had reservations about immigrants from Southern and Eastern Europe. "The march of the hardhets in early May, 1970." he writes, "was an educated lib-eral's dream come true. Real fascists. With flags, In the streets.

Breaking heads, Blood." What his book does, though not always in an orderly way, is to show how his people came to be where they were and why the reaction of their critics is not necessarily just. In the process he covers some familiar ground. The ethnic immigrants, he says, had to endure two challenges to their individuality as cultural entities: one from the governing WASPs with their weight of prestige and position, the other from the intellectuals in the schools, newspapers, communication outlets and the like.

Everything in American life conspired to force the newly arrived people to destroy their heritage and ape what they con-sidered to be American life styles. Slavic parents, for example, refused to teach their children the spoken tongue so that they would have no residue of their origins. But worse than any single act was the fact that these new Americans did not fight against the idea that it was proper to shuck off all old cultural trappings. Their clannishness and warm

family feeling, their parental attitudes to their children, their open and volatile behavior, their appearance and gestures, their brand of Roman Catholicism were all diminished. Instead they sought a way of life that was prim, neat, controlled, subdued and proper. Since they could never achieve the desired state without sacrificing all that was vital and valuable in their lives.

they were reduced to a constant state of inferiority. They almost believed what was said of them. Novak, who teaches philosophy at the Old Westbury campus of book reviewer.

the New York State Univercan never be severe enough excorlates them for their at bery, their lack of vision, nar understanding and absence sympathy. They exercise the selves in defense of the bla and Indians, but they reveal most stereotyped of attibut about the people who are

subject of the book.

He fires away on every le Why doesn't a curator who organize an exhibition of bl art organize one of Lithuan art? One of six people in a York is of Italian origin 1 only 14 out of 165 are deans the City University. Why educated classes find it so h understand the man drives a beer truck?

He discusses with some p

gency the ethnic response housing, to college radicals, the flag and patriotism and their own frustration. He is rigidly consistent because, imagine, he is impelled in heart to take one position then finds himself intellectua drifting over to the other ε Some of the passages on Norm Mailer and Marcus Raskin given such friendly exposit that they must be two of intellectuals exempt from the g eral condemnation. And his chi ter generally oo Jewish writ since World War II has sound of a man who came criticize and remained to pra

And Mr. Novak oever qu makes clear why the WASP tablishment and the intellectu were able to get away with at villainy. Why didn't the Poles Greeks or Slavs assert their et nic differences? Why did th not contribute a literature ti embodied their ancient values these values in transition? H come Willa Cather, instead of countryman of Mr. Novak's, wn "My Antonia"? Throughout his respect for t

influence of the intellectual excessive, P.D.R. depended much on such men as Crump Memphis and Hague of Jers City as he did on Rex Tugw Elsenhower had no trouble be ing Adlai Stevenson, the dark of the intellectuals. Does really think that The New Y. Review of Books or "The Gree ing of America" shakes st. capitals over the nation? Th is a whole world west of Hobol that would let Manhatian br off from the East Coast and fl to sea without shedding a sin tear. Too often Mr. Novak see determined to lay the lacks of own group on the shoulders his neighbors.

Mr. Lask is a New York Tit

side in the talks pretended that this was the same Willis Howard Mays who had startled people in the old Polo Grounds as a rookie in 1951 with his speed, powerful throwing arm and home-run bat. They agreed that the trade had been made for two reasons: To help the Mets with reserve strength now and to help Mays with reserve finances in the future.

He has played in 2,857 games in the big leagues, all with the Giants; gone to bat 10,477 times; made 3,187 hits, and batted in 1.859 runs. He also has been one of the most dramatic center fielders in the modern game, twice was voted the most valuable player in the National League. three times appeared in the World Series and 18 times played in the

The mystique of his return to New York at the end of that career, though, also rests on the nostalgia that he evokes here. When the Giants and the Brooklyn Dodgers left town after the 1957 season for California, a colorful chunk of the city'e sporting history went with them. In more recent years, the gap was bridged by the Mets, who will now retrieve Mays and the memories that went West with

'A Wonderful Feeling' "It's a wonderful feeling," Mays said this afternoon, "and I'm very thankful I can come back to New York. I don't think I'm just on display here. There's Do doubt in my mind that I can help the Mets if I'm used in the right

Donald Grant, the stock broker who serves as chairman of the Mets' board of directors, also tried to head off any speculation that the team was merely adding window-dressing

"I hope that this move will be successful at the gate," he said. It would be hard to deny that getting Willie Mays might prove to be rewarding. But that simply wasn't our purpose. We feel that there's a lot of sentiment and pride in this." Horace C. Stoneham, the pres-

ident of the Giants, obviously embarrassed recently by disclo-sures that he would trade Mays, said with an unhappy look: "The Mets are the only club that could take care of him. Don and Mrs. Payson are as much in love with Willie as I am."...

Life-Long Giant Fan Mrs. Payson-the former Joan Whitney, who supplied the bankroll for the Mets when they joined the league in 1962-has been a life-long Giant fan. She even held a few shares of stock in the club at one time, and she and ham for a decade that they were interested in acquiring Mays if he ever became available.

Mays started becoming available this year when the Giants started to retreat at the gate and on the field. He is in the second year of a two-year contract at \$165,000 a season, and he asked the Giants , last winter for a 10-year retainer at \$75,000 a year in any capacity. Stoneham replied that he could not afford it, and began listening

more closely to offers. Mays, meanwhile, got off to one New York 13 8 684 ... of his slowest starts this season after the two-week pension strike by the 600 players in the major bat 49 times, made only nine hits (seven singles and two doubles), was hatting only 184 and began to fade in the chase to overtake Babe Ruth's record of 714 home

None of the precise details of the deal was announced, except that the Mets would give "Charlis Williams and an undisclosed amount of cash." Also, that they would guarantee Mays's "secu-Later, though, Grant conceded that the personal-services contract would run three years at least and would provide Mays with the same security he had been seeking from the Giants.

"I really thank this man," Mays said, nodding to Stoneman. "He could have kept me and not provided for my security." Then, with a slip of the tongue, or of the record-book, he said:

"I'm grateful to be coming back here at 44." As for when he might retire. Mays said: "I'm looking forward to playing and helping but not to embarrassing myself."

atthews's Olympic Gold Didn't Pan Out

By Neil Amdur

W YORK, May 11 (NYT) -All his young as the fastest kid on the block, Vince Mats heard people tell him that an Olympic gold I was something special, that it would open s of opportunity.

Matthews made the U.S. Olympic track and team in 1968 and won a gold medal as the ff man on the 1,600-meter relay. Yet from noment that Matthews etood on the victory i, detours of distillusionment have greated him ery crossroad, on and off the track st recently, the 25 year old New Yorker was

1 to climb 10-foot fences to find an available by for training.

A least I have a place to train now. Mat-; said at the weekly luncheon of the Track ers Association of New York. "Larry James ther member of the U.S. relay team and a medalist in the 400-meter run) has to put. dle on the front lawn of his house to practice?.. thews deserves recognition, and it finally come in the 440-yard dash st the Interral Freedom Games Sunday at Franklin Philadelphia. The entry list reads like a is who" in the quarter-mile: Lee Evans, the

1968 Olympic champion; Wayne Collett, Tommie Turner, Tom Ulan, Fred Newhouse, Curiis Mills and Julius Sang of Kenya, and Matthews.

Matthews ran 45-seconds flat on a relay lex at the Penn Relays last month, an indication of his strength and speed. Yet he realizes that without financial help he stands little chance of even trying out for the U.S. team.

Matthews returned to Johnson C. Smith College after the Olympics, graduated and went job-hunting, hopeful that "Olympic gold medalist" would mean as much on a job application as it did to the track aficionado. It took him eight weeks to land his first job. He now works with Youth Services Agency, a division of the Neighborhood Youth Corps.

People would yawn while they were reading my application," he said. "For the most part, I don't think track athletes get the recognition they deserve."

Why then has Matthews returned to the challenge? 'I had been home doing nothing watching meets on TV," he said. "I felt I could still run a good time and win. I guess I'll find out on

of the Braves at second base. Braves' pitcher Mike Mc-Queen hit to second baseman Dal Maxville, who threw to

shortston Crosby for the force. Crosby's relay got McQueen.

Orioles Score in 9th to Win On McNally's 4th Shutout, 1-0

NEW YORK, May 11 (UPI).-Catcher Ken Susrez struck Brooks Robinson in the back with an attempted relay to first base in the ninth inning last night to give Dave McNally and the Baltimore Orioles a 1-0 victory over Pete Broberg and the Texas Rangers.

Robinson, batting with the bases loaded and one out, bounced a ground ball to third baseman Ed Nelson. Nelson's relay to home plate forced Don Buford for the second out but Suarez's relay to first base hit Robinson in the back and the ball bounced into short right field, allowing Mery Rettenmund to score the

25 Cars to Start In Monaco Prix

MONTE CARLO, May 11-Belgium's Jacky Ickx set the fastest time in the first day of practice for Sunday's Formula One Grand Prix of Monaco after dispute came close to cancelling The three-sided confrontation

between the Formula One Constructors Association, the race organizers, and the Grand Prix Drivers Association was over the number of starters. Originally 20 cars were to have been on the starting grid, but then the car builders demanded 25, and were supported by the drivers. However, no agreement had

been reached right up to practice today, with the organizere holding out for 22 starters, or a split grid if 25 started, with 15 leaving 5 seconds before the other 10. Today, the car builders said

they would ship their cars away tonight and not participate in the race. After practice was delayed for 20 minutes, the organizeregave in and 25 autos will start. Ickx piloted his Ferrari 312-B over the modified circuit of 3.145 kilometers in 1 minute, 23.3 seconds-one-tenth second off the lap record for an average speed

Infallible Presidents

By Russell Baker

WASHINGTON.—Precident Nixon finished his somewhat scary speech on Vietnam Monday night with an appeal for the support of the people. He deserves it. He is in a most difficult posttion, and he is, as Presidents have become fond of reminding us, the

have. Although ths presidency is probably not the vale of agony its propagandists would have us believe, it can Et

only President we

moments like the present put su-

Baker perhuman demands upon the driven men of massive ego who, in the nature of American politics, are the only kind of men likely to become Presidents nowadays and for some time to come._

For reasons too debatable to get lost in here, we the People, as the founders called us, have of late come to demand godlike qualities of our Presidents. Zeuses all since Harry Truman, they command the all-powerful lightning, and with blind faith we commend our lives to their discretion in its hurling. Why should we not? They occupy the American Olympus atop Pentagon and CIA. If wisdom is not to be found there, then where?

Like Jupiter, who could transform himself into bulls, showers of golden coin and lots more besides the President appears before us in many forms. Now he is the warlike Party Leader, all billingsgate and balloons. Now, presto! he is the American flag ("ladies and gentlemen, the President of the United States!") appealing to all the people to stand up and place hat or hand on heart.

In granting him those powers we also exact demands. What is pertinent in the present case with

British Visitors

LONDON, May 11 (UPI) .-- A total of 791,000 foreigners visited Britain in the first three months of this year, the Department of Trade and Industry said yesterday. This figure excludes Commonwealth citizens and those of Ireland.

Nixon is our demand that the President never make a mistake. This is a latter-day requirement of godhood. Zeus was always making mistakes, which was what made Greece such an interesting

Presidents are not allowed mistakes, however. Oh, it's all right, when one is appearing as warlike Party Leader for the Loyal Opposition to accuse him of making mistakes, but when he transforms himself into the American flag mistakes cease to have existed. "U.S. closes ranks behind President," USCREP, the papers siways say.

That is also called "supporting the President," and it is the act President Nixon requested us all Mooday evening to perform. He is in a bad spot. His policy of "Vietnamization" has turned out badly. It was, in fact, a mistake, not long ago, when he stood before us as warlike Party Leader he was telling us that Vietnam would not be an issue in the coming election and that, thanks to "Vietnamization." he could pull the rug out from under anyone foolish enough to try making it an issue.

Now, forbidden by popular delusion to confess a mistake in "Vietnamization," his unhappy choice has been to transform himself-'Ladies and Gentlemen. the President of the United States!"—and ask us to close ranks behind a policy of more

If we were now to give him the kind of support he needs most, which is support of the President's right to humanity, we would do him great mercy. This would mean notifying him that we would not believe him a failed god if he were to come before us and say, "We made a mis-

It is time to start supporting the President's human right to make mistakes. We should each write Nixon a few comforting words to the effect that we do not expect him to be Zeus and, indeed, that it would be supremely flattering if for once a President would allow us a passing brush with divinity by giving us the chance to forgive.

At a guess, the President will not get much support of this sort. Most of what he hears will probably encourage him to stick with the Edsel.

This firebrand in her 80th year is very much a now person. She has a stirring past but has no intention of dwelling in it.

Maria Jolas, The Militant

PARIS (IHT).—Take the elevator to the fifth floor," the voice on the telephone said, "and ring twice." She added with a chuckle, "Sounds like E speakeasy, doesn't it?" Maybe I had the wrong number. A newspaper, in noting the recent death of Lucie Noël, said that Maria Jolas was now probably the last survivor "of the loyal group of friends around James Joyce in Paris in the twenties and thirties." The woman on the phone had sounded like the last survivor of nothing more sobering than in all-night party.

But no, there was nothing wrong with

the connection. A few days later I went over to the Rue de Rennes, took the elevator and gave the signal ring, as instructed (she shares the apartment with a French family). I had never seen a picture of Maria Jolas and had no idea of what to expect, though obviously she would be quite old. The woman who opened the door might have stepped out of one of those huge Delacroix paintingsa heroic figure of Liberty. Freedom and/or Justice. Tall and handsome with a mass of well-groomed white hair, she gives an impression of radiant good health and vitality.

There is nothing misleading about this. That morning she had shot off a telegram to President Georges Pompidou protesting the latest actions in Vietnam of Prance's American ally. This firebrand in ber 80th year is very much a now person. She has a stirring past but leas no intention of dwelling in it. "It's all a matter of public record," she said, clearly anxious to steer the conversation back to today, rather than to the events of more than a half-century ago. But at least a brief look at the record of her past seems essential

Born in Louisville, Ky., she went to Berlin in 1913 to study music, returning to the United States at the outbreak of World War I. She came to Paris after the war and in 1925 met Eugene Jolas. He was born in the States of a French father and a German mother, but nad grown up in France. They were married six months later. Jolas had a keen interest in experimental literature and in

1927 he and Elliot Paul started the nowfamous magazine called Transition (originally printed with a lower-case "t" as a gimmick but later capitalized).

The first issue, as Jolas said later in a commentary, "set the standard" for this most brilliant of "little" magazines: an extract from Joyce's "Work in Progress," eventually titled "Finnegans Wake." "elocidation" by Gertrude Stein, pieces by Kay Boyle and Robert Coates, poems by Archibald MacLeish and Hart Crane, trans-

IRVING MARDER

lations of poems by Gide, and much more Transition lasted for just over a decade, from 1927 to 1938. During those years it presented the early work of a breathtaking array of writers and poets. Kandinsky and Picasso, among others, nainted covers for it. (The Kraus reprint company has published a photographically produced set of Transition's entire 27-issue run, in hardcover volumes.)

Mrs. Jolas, while staying in the background ("I said to my husband when we were married. I promise you I'll never write"), found herself "forced to write, first letters, then translations, as well as correct-

ing proofs." During this period both Jolases were in close contact with the man described by Gertrude Stein as "that fifth-rate Irish politician"—Joyce. "He was one of the most charming people," Mrs. Jolas said. But he was also, she thinks, "a devastating influence on young writers" because of the standard he set for himself.

But, having allowed herself this digression into the past, she guided the conversation firmly back to the present. Much

of her time-"too much," she said a little ruefully—is devoted to the peace cause. She describes herself as a militant" in the campaign to end the war in Vietnam, and is vehement in denouncing the "total dishonesty" of the United States on the war issues. Sha is also critical of what she sees as "cynicism" on Vietnam as "the smart stance" among Americans who should know better.

She last visited the United States in 1964; the last time before that was in 1946. But she keeps in constant touch, she says, especially through young people. Her face lit up as she told how touching it was for her to pick up the phone and hear a young American voice say, "Is that you Maria?"

Eugene, her husband, died in 1952. They had two daughters, both of whom are married to Frenchmen and living in Paris. One of her chief activities (in addition to babysitting for her grandchildren) is translating, mainly the works of Nathalie Sarraute.

She keeps returning, in conversation, to what she sees as the lamentable situation in America today—"I'm absolutely rabid on the subject of American patriotism" meaning, of course, chest-pounding superpatriotism. She is saddened when she thinks of how "hated" Americans have become abroad, in some respects earning themselves a position not unlike that of the Nazis. She says this passionately yet matter-of-factly: There is no hint of a stump speech or of striking attitudes.

As she saw me to the door, I said something about how well she looked, and ventured the guess that she'd probably live to be 100 or so. She laughed, shook her head as if to say, "No, that would be old," and sald she'd settle for another
